Ideation Phase

Brainstorm & Idea Prioritization Template

Date	15 March 2023
Team ID	NM2023TMID16435
Project Name	Intelligent Admissions: The future of university decision making
Maximum Marks	5 Marks

Brainstorm & Idea Prioritization Template:

During this activity, our team members gathered and disguised various ideas to solve our projects.

Each member contributed six to ten ideas. After gathering all ideas. We assessed the impacts and

Feasibility of each point.

Finally, we have assigned priority for each point based on these impact values.

Step 1 Team gathering, Collaboration and select the Problem Statement.

→

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

🕐 10 minutes

A **Team gathering**
Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

B **Set the goal**
Think about the problem you'll be focusing on solving in the brainstorming session.

C **Learn how to use the facilitation tools**
Use the Facilitator Superpowers to run a happy and productive session.

3

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you and break it up into smaller sub-groups.

🕐 20 minutes

TIP

Add customizable tags to sticky notes to make it easier to find, browse, organize and categorize important ideas as themes within your mural.

2

Brainstorm

Write down any ideas that come to mind
that address your problem statement.

🕛 **10 minutes**

Chithra

collect the dataset	data security	Intigate with web frame work
many popular open source for collecting data	To predict chances of students admission in the univercity	To prioritize the students athlets status

Tamizhselvi

capacity utilization of transport system	Capacity planning of hostal eccommodation	Intelligence Decision support system use of the higher education system
Identify outlier students	estimate the cut of percentage and rank and perform comparative historal analysis	Searching for college at affordable price

Harish

Predict whether an application's academic profile matches with that of its existing students	Target marketing for campaign management in promising students	Demographic Analysis capabilities to study Admitted
Identify loan needy students	Use of human machine interactions	Career guidence

kathiravan

Web information and announcements	hostel facility,Library facility,Research facility	To deliver the project on the time
compare the cost of another college cost	fees analysis	identify students with loan requirement and send this data to lending agencies

④

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

⏱ **20 minutes**

♡

Importance

If each of these tasks could get done without any difficulty or cost, which would have the most positive impact?

TIP

Participants can use their cursors to point at where sticky notes should go on the grid. The facilitator can confirm the spot by using the laser pointer holding the **H key** on the keyboard.

⚑

Feasibility

Regardless of their importance, which tasks are more feasible than others? (Cost, time, effort, complexity, etc.)
